The walnut hardwood floors have just been refinished, and combined with the 9’ ceilings, add an airy feel to the open concept heart of the home. The expansive chef’s kitchen is centered around a granite island, has updated appliances and has just received new backsplash. A modern touch in an already move in ready home. Abundant storage and easy access to the pantry wing, this kitchen also features double sinks that overlook the back yard. Across from the kitchen is your living room, complete with custom built ins, and a gas fireplace. The perfect space for the family to gather or for the kids to relax while dinner is being prepared. The dining room at the rear is surrounded by natural light thanks to the addition of transom lights above the already generous window space. This also leads out to the two-tier deck and hot tub. The main floor completes with a powder room, laundry and mudroom

access out to your double attached garage. As you head upstairs, note the carpet has been replaced and a lighting upgrade throughout much of the main floor and upstairs.
