3 Bedroom, 1.5 Bath Fixer-Upper with Garage
This is a major project property ready for a full renovation. The home offers 3 bedrooms, 1.5 baths, and a full unfinished basement. A single-car garage is located at the back of the property. Condition: The house needs extensive work, including a new roof, windows, flooring, kitchen, and bathrooms. The electrical system is outdated, with only 60 amp service and active knob-and-tube wiring connected to basement lighting. Other Details: Tenants are currently in place on a month-to-month basis. The yard is filled with various items and will require clean-up. If you’re looking for a property to completely rehab from top to bottom, this is an opportunity to bring new life to a worn-down home.
