723 Kenderdine Boulevard – Sunset View Beach. Modern design meets lakeside living at Sunset View Beach, just steps from the waterfront. This 12' x 48' modular home is built on a screw pile foundation and offers an efficient, thoughtfully designed layout, ideal as a recreational retreat or seasonal getaway. The home features 2 bedrooms, luxury vinyl plank flooring, and a warm, contemporary finish with shiplap pine ceilings and walls. The kitchen and bathroom feature quartz countertops, and the bathroom includes a tile-surround shower with a glass door. Custom millwork in the bedrooms adds smart storage, while the loft provides extra sleeping or storage space. In-home laundry adds everyday convenience. Comfort is provided by an air-source heat pump with a backup electric furnace, offering efficient year-round climate control. Triple-glazed windows further enhance energy efficiency. A major value-add: the lot already has septic, power, and water installed, reducing setup time and costs. The modern exterior and clean lines complement the natural beach setting, making this a turnkey opportunity in a desirable waterfront community.
