If you are looking for a very affordable residential lot to build your next home on then look no further than this 50ft x 122 ft lot located in the Bird Capital of Canada-McLennan. This little town sits along the shores of Kimiwan Lake and offers great recreational opportunities all within a short drive. The town itself has all of the amenities a person needs like a school and hospital but escapes the higher priced lots of the larger communities. The property has the services to the property line making it easy to service and set up. A slower pace of life and welcoming, friendly residents make this a great place to call home. Call today to find out more!
