Major Use:	Pasture		

Amazing views are just a start to this beautiful 1/2 section of land in the Porcupine Hills. The 1999 modular home sits where the views of the Livingston Range can be enjoyed to the fullest. This 3 bedroom, 2 bath home sits on a developed basement with a separate entrance. The new 32'x48' attached garage has plenty of room and has 2-12'x10' power overhead doors and bright LED lighting. The is also a newly constructed 32'x42' metal clad shop with a 12'x12' overhead door. A three rail fence delineates the driveway to the property. There are fenced paddocks, a corral and water spigot. The pastures are fenced and their is an automatic waterer between the 2 large pastures. The well is 285' and produced 17 GMP at it's last test.
